## INTRODUCCION

En el marco del proyecto "Sistema Interamericano de Información Estadística para el Desarrollo Agropecuario", el IICA adquirió una copia de las Bases de Datos Socio-Económicos de la USAID.

Estas Bases de Datos incluyen información sobre unos 800 temas (variables principales), para unos 200 países. La información fue recolectada por diversos organismos internacionales (U.N., W.B., AID, etc.) cuyas Bases de Datos particulares fueron copiadas y centralizadas por AID.

Estas Bases de Datos y la Base de Datos de CORECA componen el Banco de Datos Socio-Económicos que el IICA, a través de su Centro de Documentación, CIDIA, pone a la disposición de los usuarios.

A continuación se describen las Bases de Datos que componen el Banco de Datos Socio-Económicos respetando la nomenclatura con que están registrados y se propone un esquema tentativo de mecanismo de solicitud para cumplir en forma eficiente con las necesidades de los usuarios.
