PROPOSAL FOR EXTENDING THE MANDATE OF THE SPECIAL ADVISORY COMMISSION ON MANAGEMENT MATTERS (SACMI)

Panama City, Panama

The Special Advisory Commission on Management Issues (SACMI) was established by the Inter-American Board of Agriculture (IABA), through Resolution IICA/JIA/Res.341(X-O/99), with the purpose of facilitating "more regular discussion between the Director General and the Member States on administrative and financial initiatives and issues in order to facilitate the process of reaching consensus on those issues and initiatives in the Executive Committee and in the IABA."

The SACMI has the following functions:

- i. Advise and assist the Director General in developing, evaluating, and implementing proposals for improving, modernizing, and transforming the administration and financial management of the Institute;
- ii. Facilitate consultations among the Member States and with the Director General on financial and administrative issues and initiatives;
- iii. Adopt its own Rules of Procedure consistent with the provisions of the Institute's rules and regulations; and
- iv. Report annually to the Executive Committee on its activities;

The SACMI's mandate was extended for two additional years on the occasion of the Eleventh Regular Meeting of the IABA (November 2001), as stipulated in Resolution 366 of that governing body.

The working documents of the upcoming Twelfth Regular Meeting of the IABA include the 2003 Report of the SACMI, which contains both the recommendations presented by the SACMI to the Director General, the Executive Committee and the IABA, and a description of the actions taken by the General Directorate to fulfill same. This report is being submitted in compliance with IABA Resolution 366, which instructed the Director General to report semiannually to the Member States on measures adopted in response to SACMI recommendations.

The Executive Committee, at its Twenty-third Regular Meeting, welcomed the 2003 SACMI Report and used it as basis for adopting important decisions to strengthen strategic IICA programs in the areas of trade, agribusinesses, food safety and agricultural health. It also contributed to facilitating the adoption of measures to solve the critical problem of quota arrearages and decisions to facilitate the restructuring of the Institute's finances, whose regular fund budget has been frozen since 1995.

In the course of the deliberations of the Twenty-third Regular Meeting of the Executive Committee, the Canadian Delegation recommended that the Executive Committee propose to the IABA, at its Twelfth Regular Meeting, that it extend the mandate of the SACMI for another two years, until the Thirteenth Regular Meeting of the IABA (2005), in accordance with Article 9.1 of the SACMI Statute.

The Canadian Delegation underscored the importance of the SACMI's work in analyzing issues referring to the operation, management and future of the Institute, noting its valuable recommendations both for the Director General and for the governing bodies of the Institute. It highlighted the relevant role that the Advisory Commission had played in efforts to develop and achieve consensus on the matters submitted to its review.

The Executive Committee welcomed this recommendation and charged the Director General with drafting a proposal to extend the mandate of the SACMI for another two years, to be submitted to the consideration of the IABA, at its Twelfth Regular Meeting. The present document and attached draft resolution are presented in fulfillment of that mandate.
