

Caribbean Climate Responsive Agriculture Forum

CCRAF 2023 Edition - Part 1/3 Report

May 17
2023

Caribbean Specific Agriculture Apps

Caribbean
Climate Responsive Agriculture
FORUM

Objective

To share the experiences in developing the FarmVue & Caribbean Community agriculture apps to suit the Caribbean context, and their value, benefits, and potential of these apps in helping farmers and agricultural practitioners better adapt to climatic changes and impacts.

Presenters

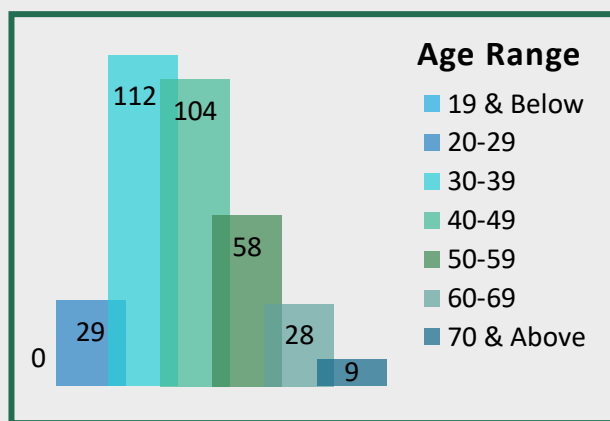

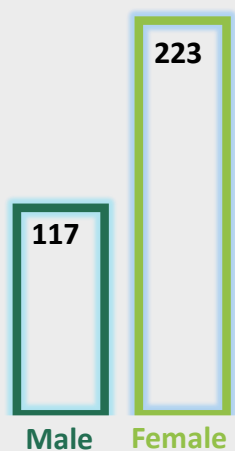

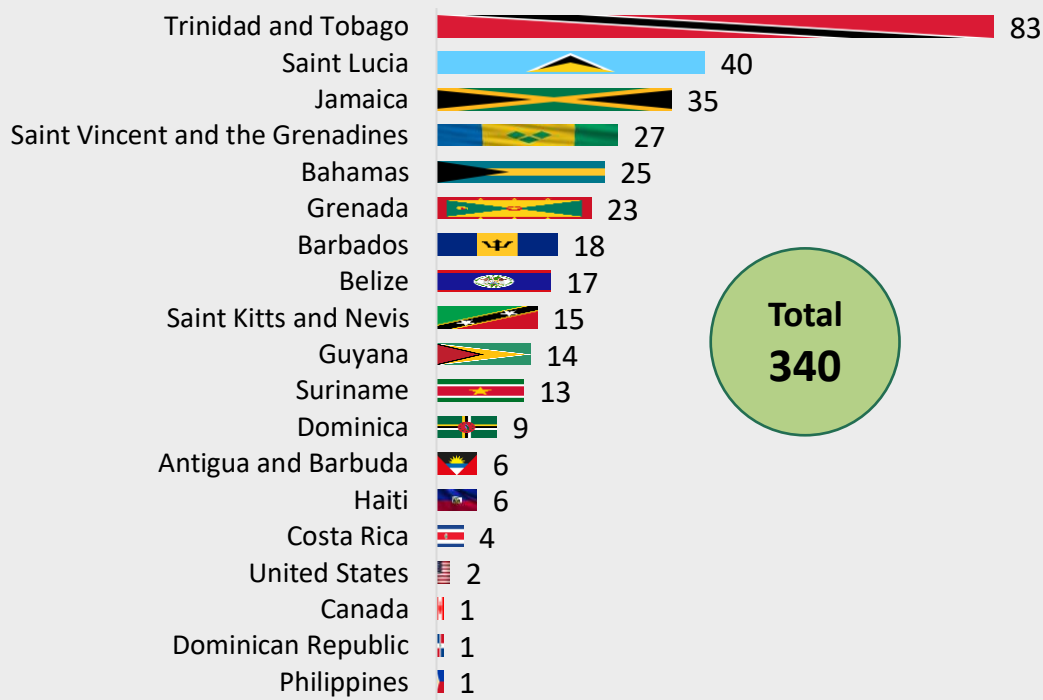

Ms. Laura Macneil
Founder – CaribFarm
Caribbean Community App

Mr. Richard Rampersaud
Agribusiness & Value Chain Specialist – IICA
FarmVue App

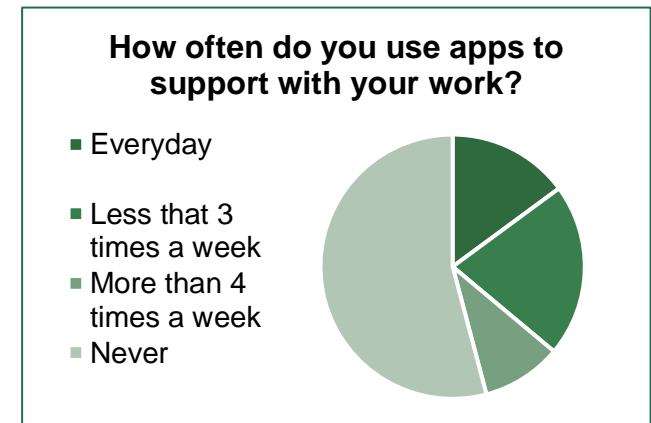

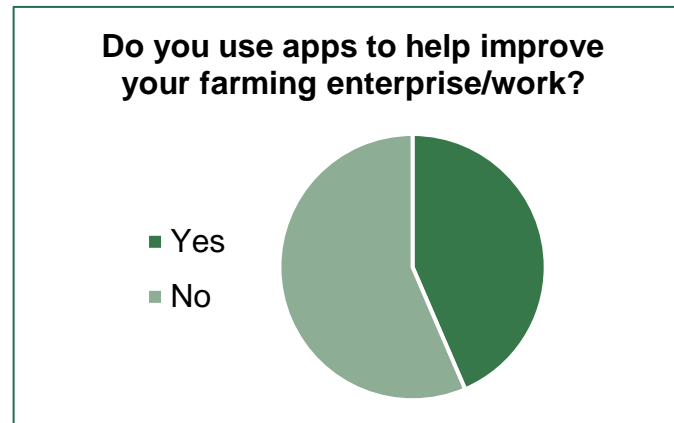

Participants Analysis

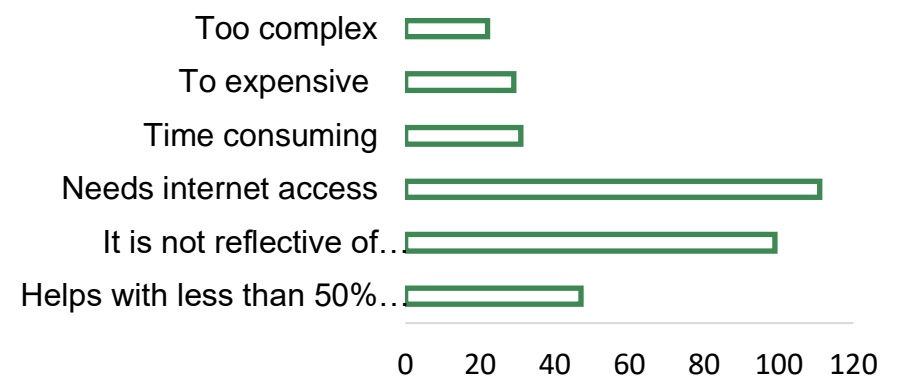

Participants Feedback

- 'Thank you for the presentations. Really good work.'
- 'Info is super, farmers will certainly benefit from these features'
- 'Thank you for all this information. Very interesting'
- 'This has been a great introduction for a very timely and informative set of goals for agriculture and by extension, food security. I definitely look forward to the upcoming sessions.'
- 'Great session. I'm looking forward to the next one'
